The Rev. Dr. Smyth Says the Opposition to Them in Connecticut Is a "Moral Protest"-Preachers Favor Congressman Hill-Woman Mixes in the Contest.

New Haven, Jan. 1 .- The Rev. Dr. Newman Smyth, pastor of the Centre Church of this city, who is pronounced in his opposition to having either ex-Gov. Morgan G. Bulkeley or Samuel Fessenden of Stamford, the former Republican national committee man of Connecticut, represent Connecticut in the United States Senate and who has written a letter to all the Republican members of the incoming Legislature giving therein his reasons why he is opposed to Bulkeley and Fessenden, said to-day that he would write no more letters on the sub-

It was Dr. Smyth's opinion that he had done his duty in notifying the Connecticut legislators of what he regarded as Bulkeley's questionable management of the Ætna Life Insurance Company and that he favored pool selling at the races in the State and that to send him to the United States Senate would be against the wishes of the good people of Connecticut.

Dr. Smyth's reference to Fessenden was simply that he was a politician and that his pelitical methods were not approved by the

He said be could not understand why Dr. Smyth had any occasion to write such a letter. He wasn't in the least alarmed, so he told some of his friends, of the effect of the clerical onslaught, and gave them to understand that he was pretty sure to be chosen Senator.

Fessenden merely smiled when his attention was called to Dr. Smyth's statement that his political actions were not such as would meet with the endorsement of the clean voters of Connecticut. "I can't say a thing about it," replied Fessenden when he was asked to say something in reply to Dr. Smyth. "You know I am a peaceable man and I can't get into a squabble with any man in the world on any sub-

Dr. George Austin Bowen of Woodstock, the Grange leader of the State and who has been a member of the Connecticut general Assembly several times and who is credited with great influence among legislators who represent the farmer element in Connecticut in the Legislature, said in an interview that he thought the farmers had not forgotten the attitude of Gov. Bulkeley when he vetoed the Oleo bill, which the farmers finally carried through both houses after a hard battle. The farmers were against bogus butter.

The present is no time to attempt a hypocritical purification of politics. The chances for such a purification, if it was needed, passed by months ago. There is nothing in the specific or intimated charges against Messrs. Bulkeley and Fessenden that has not been threshed out again and again, and nothing with which the people are not quite familiar. These clergymen will find that few of the people will back them in this crusade, and the sooner and more gracefully they withdraw from the contest the more favorably they will be looked upon."

secured.

The first meeting of the Great Chapter of the Cathedral, a body made up of leading clerical and lay Episcoj alians of the diocese of New York, was held last Friday. At this meeting it came out that the man to whom the greatest honor should be paid for pushing forward the work on the Cathedral structure is the Rev. Dr. William R. Huntington, rector of Grace Church. The Great Chapter unanimously adopted a resolution of thanks to Dr. Huntington for his services in drawing up the constitution and statutes of the Cathedral and in raising \$700,000 for the Cathedral building fund.

The work on the Cathedral which will be done with the \$750,000 now available includes the completion of the choir, which is that part between the Belmont Chapel, on the part between the Belmont Chapel, on the extreme eastern end of the structure, and the great stone arch which has been standing for a year or two, and the erection of three more arches like that now standing. The three arches will form three sides of a huge square, of which the fourth, now standing, is the eastern. These arches are ultimately to support the tower of the Cathedral, the top of which will be 425 feet above the ground, but they are to be temporarily roofed over and walled in, and the space enclosed, technically known as the crossing, will form a large part of the temporary Cathedral church.

The company offers for sale 50,000 shares of its Capital Stock at par; namely, \$10 per share, payable one-half on subscription, and one-half in ninety days.

THE GUAYNOPITA COPPER CO. IS ORGANIZED UNDER THE LAWS OF WEST VIRGINIA, WITH
A CAPITAL STOCK OF 500,000 SHARES: PAR 510 PER SHARE.

The property of this Company is situated in the District of Guerrero, Chihuahua, Mexico, and consists of the following mines: La Cabrizas, Las Moreias, The Arizona, La Guaynopita, Morales, Santa Ellena. and Jay Gould Mines, containing 5.737 acres in all.

In addition to the above-named properties the company holds bonds and option of purchase on ad-

joining valuable property. It also holds the sole right of exploration upon a zone having a radius of 12 miles from the Guaynopita Mine as center, under a concession granted by the Republic of Mexico on De-The company has also obtained from the Mexican Government concessions for smelters, reduction works, etc., together with very valuable exemptions from the general Government and the State of Chi-huahua, exempting from taxation machinery, construction material and export duty upon metals.

The company has also been granted concessions of water rights to 30,000 horse-power upon the Aros River, affording it abundant power at nominal cost. The Guaynopita property is situated in the heart of the Sierra Madre Mountains, and is one of the great ancient copper mines in Mexico, having been worked extensively in pre-historic time. The remains of over 200 ancient Aziec furnaces used in smelting the Guaynopita ores still remain. The remoteness om railroad connection has heretofore prevented the working of these immense deposits of copper ore.

The Rio Grande, Sierra Madre and Pacific Railroad, now being constructed by the President of the mpany, Colonel W. C. Greene, and his associates (156 miles having already been constructed and now in operation, and the remaining section of 140 miles to be completed during the present year), will afford transportation for cohe and supplies for the enterprise and for the transportation of copper bullion to

The country adjacent to these properties is heavily timbered, about 3,000,000 acres of pine timber being also owned by Col. Greene and his associates, thus affording cheap lumber and unlimited water powers which, with the cheap labor obtainable, and the large body of ore will give every facility for producing
